

# Wanaka Marine

'Your ON THE WATER specialists'

January 2008

The December January period this year has been one of the busiest on record for us and the weather certainly contributed to that.

With a couple of large boats to setup and the general maintenance we ended up having to employ another staff member in the workshop. Tom Osbourne has joined us for the summer period and has already proven himself a valuable member of the staff!!

The high dollar has certainly helped sales of American boats- a great way to buy a quality boat at a very good price compared with the NZ sisters!!

Please check our current stock. These boats are very well priced at the mo and we are offering little incentives so make contact with Vern or Ian to discuss your needs.

Southernboats:  
Wanaka Marine and Southernboats have now "joined" marketing forces so opportunities for great packages and support now exist... well worth an ask!!

We are also now getting into the sporting side of trade and the opportunity to purchase ammunition, some firearms, fishing gear, clothing etc now exists.

Just click on one off the areas under "Accessories" and make an enquiry!!

Regards

Ian
