

# Wanaka Marine

'Your ON THE WATER specialists'

NEWSLETTER – March 08

March already... summer is in wind down mode and the colours of the trees are changing... as are prices in general- seen fuel lately- and more especially in Wanaka!!!??

**The Wanaka Show** was extremely busy and whilst not a lot of boats were sold, the follow up has been positive.

With Six Dealers there this year people had a range to look at but I do question the logic of squeezing them all together!!

**New Premises:**

For those who have been frustrated over the years trying to find a park at Anderson Road we have solved the problem. Wanaka Marine will, as at the 1 April, own the whole yard providing drive through access for its customers.

I'm sure it will make a massive difference to operations here and we hope allow customers more "freedom".

Future plans include enlarging the showroom and extending the work bays- but- good things take time!

**Show Special:**

Are you aware that we are offering a \$5000 cash back on 6m + orders for March and April?? Please don't hesitate to enquire:

We also have one 509 Stabi that we are applying the same deal to- it goes from \$42000 to \$37000- and that includes a VHF and anchor etc. and a 75 or 90 HP Merc!!!!!!!!!!!!!!!!!!!!!! Even the factory cant match that!

**Other bargains:**

We are able to source sporting items as I have mentioned before and: Some opportunities I have in store are:

**22 Ammo- \$65 for 500 rounds**

**48 Inch rifle bags- Ridgeline- only \$40 (save \$30)**

**Shotgun Ammo- Winchester- 2 3/4 - 2s and 3s- only \$195 per case!!**

**And the best of all- Soft bait- The latest and greatest in sea fishing is only \$10.00 per packet. The head unit is also available at only \$9.00 peer three... this price cannot be beaten!!**

**Duck Decoys- \$100 or \$120 per box of 12!!**

**5 Gun Safe- \$295- RRP \$400- 7 Gun Safe- \$355 RRP \$599**

**Email an order- orders of over \$75 are freight free!!!!**

### Engine Servicing:

Are you aware that Mercury Marine now has a five year warranty programme on their engines?

There are conditions though... but these conditions apply to new engines generally anyway.. they include the fact that warranty only applies if the engine is serviced at 20 hrs or three months, then annually after that!!

If you have a new engine and your service history has fallen outside those times then I'm afraid that if you have an issue you may find it's a costly issue!!!!!!!

Crownline Boats: Have a look at [www.crownline.com](http://www.crownline.com) . We have become the South Island Dealer for these.. and what a boat. Absolute top quality.. the Rayglass of the American boats!!

### Personal EPIRBs- We have three in Stock

Not only is the AccuSat Series the smallest and lightest PLB on the market, both models offer a massive 7 year battery replacement life, an industry first 7 year warranty, a high intensity LED strobe and a Non Hazmat battery pack for simple and cost effective transportation, all contributing to the unique AccuSat advantage.
