Just for a few: At the moment I am finding you can buy a new Auxiliary Motor on Trade Me for below trade price.

Be aware that they are old stock motors – that they may not have had Pre Delivery Inspections and that to maintain the 5 year warranty provided by Mercury, the owner must abide by set obligations- some of these involving service.

We are servicing the odd one of these and finding that they have not even been registered, so any warranty availability is therefore void. Sometime the extra \$\$\$ spent may be a saving in the long run!!

Tempo Tanks: 25 Litre. These are no longer available in NZ- and we have a limited supply:

Our run out price is \$90... Call now.

Enjoy winter- spring is on the way....
